3 Artists

For this assignment, I decided to pick my top 3 video artists, in my opinion, that are video artists. The first person I think is a video artist is HartnettMedia, on Youtube. This Hartnett uses cinematography within his car videos; his field really interests my hobbies and other ideas I have in my mind that would relate to a video shoot. Two other artists I think are video artists in this time and age would also be Krispy Media and F L R S H (<https://www.youtube.com/channel/UC6pPKYjldMfxCHASuAT-vLw>), all of these artists have the same style that interests my medium, and I believe that all of these video artists are underrated or not really well-known. Their styles tie focus on cars, city life, and drone footage. Overall, I think that the three video artists I chose, make visually aesthetic pleasing products.
